Hi Ruben-

You are missing all of the fun. RTP campus is closed because a pipe burst and the heat doesn't work. Beth's office was 52 degrees this morning! Good thing she is on vacation.

I will continue to update you as I receive more feedback. This is likely going to require OAQPS, OGC, and Region 6 to meet early next week.

Subject: SO2 Questions

Hi Dayana!

I'm really glad there was no second government shut-down, and I hope all is well with you and EPA coworkers.

I was wondering if you can answer a couple of SO2-related questions for me.

First, I was wondering if you know whether the EPA, in the Round 4 SO2 designations, intends to address Potter and/or Milam Counties, which are both currently being monitored and also both designated unclassifiable. I think I read that EPA would be addressing the unclassifiable areas in Round 4.

Second, can you straighten out for me the designations for Titus County? In addition to the nonattainment area designated in R2 supplement, it appears the remaining portion of that county is designated unclassifiable/attainment in the Round 3 SO2 designations (see attached final rule for R3, page 1163); however, on that same page footnote 3 states that that remaining portion of Titus will be designated by December 31, 2020 (Round 4). If you can help me understand, I would greatly appreciate it!

Thank you, thank you!
